

# Automate Your Procure-to-Pay Function with CrossCountry's CrossConnect for **sage** Intacct

Transfer master and transactional data between your Coupa and Sage Intacct environments.

## Overview

CrossConnect for Sage Intacct Automates your organization's Procure-to-Pay function. Utilizing seamless API technology, this integration enables organizations to transfer master and transactional data between your Coupa and Sage Intacct environments.

## Solution

CrossConnect for Sage Intacct ensures alignment between your procurement solution and your ERP resulting in:

- Increased efficiency for your AP function
- Reduced need for reconciliations
- Real-time AP reporting out of your ERP
- Greater control of your procurement process

## Key Highlights

**Transforms manual processes** to significantly improve operational efficiencies related to invoice processing and reconciliation

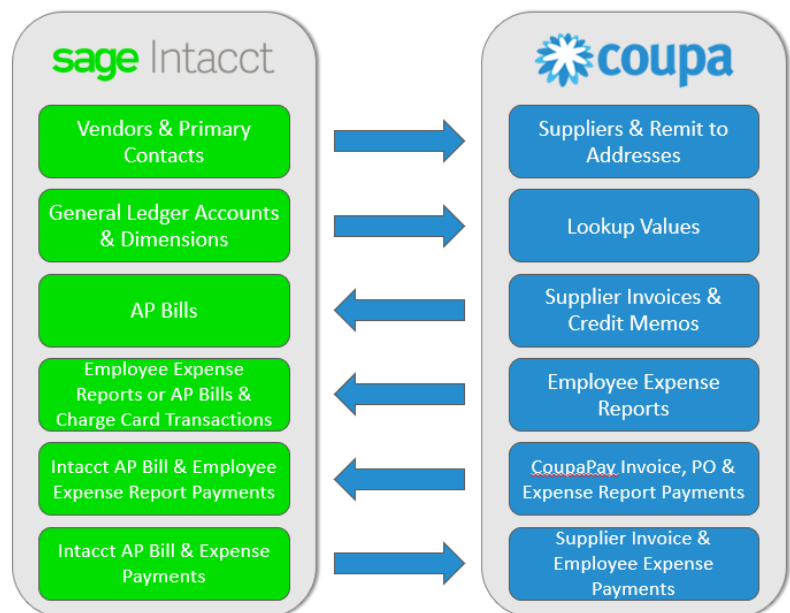

**Supports 150+ fields** including custom fields

**10+ integrations available** within standard suite

**CrossConnect for Sage Intacct** allows organizations to select the specific integrations they want to utilize in an 'a la carte' manner.

## Key Features

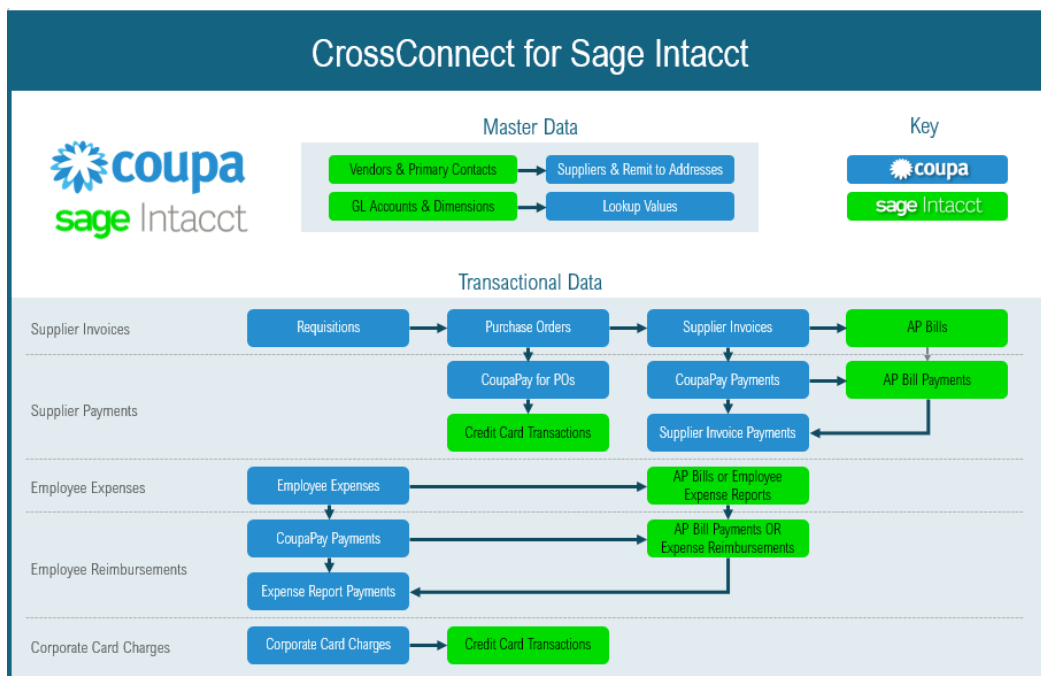

CrossConnect for Sage Intacct eliminates manual work by automating the sync of:

- Vendors & Primary Contacts > Suppliers & Primary Contacts
- GL Accounts > Lookup Values
- Dimensions > Lookup Values
- Supplier Invoices > AP Bills
- Expense Reports > AP Bills or Expense Reports
- Expense Report (Corporate Card) > Credit Card Transactions
- Sage Intacct Payments > Payment History
- CoupaPay Payments > Sage Intacct Payments

Schedule integrations independently at your preferred cadence, whether nightly or every 15 minutes.

Connector supports multi-entity, multi-currency and single or multiple Coupa Chart of Accounts.

The integration package is managed by CrossCountry, reducing workload and cost on internal IT infrastructure.
